

A reminder that there are more details and another Executive Order forthcoming from the Governor's office concerning reopening plans for Arts and Culture. Libraries are included in this and are a sub-committee of the Entertainment and Travel/Tourism groups. These new guidelines will address the importance of a slow reopening plan and making sure that circulation and quarantine processes for at least 72 hours are incorporated into your plans.

As the Governor continues to remind us – reopening is a dimmer switch, not an on/off switch. We know that by reminding your patrons frequently about your plans that they will understand that this is in their best interest. Right now, you need to make sure that you are following your newly adopted policies and procedures to reopen gradually and safely.
